

# OLEVELS VIRTUAL SCHOOL

INTERNATIONAL PROSPECTUS 2026-2027

iPrimary & iSecondary Programmes

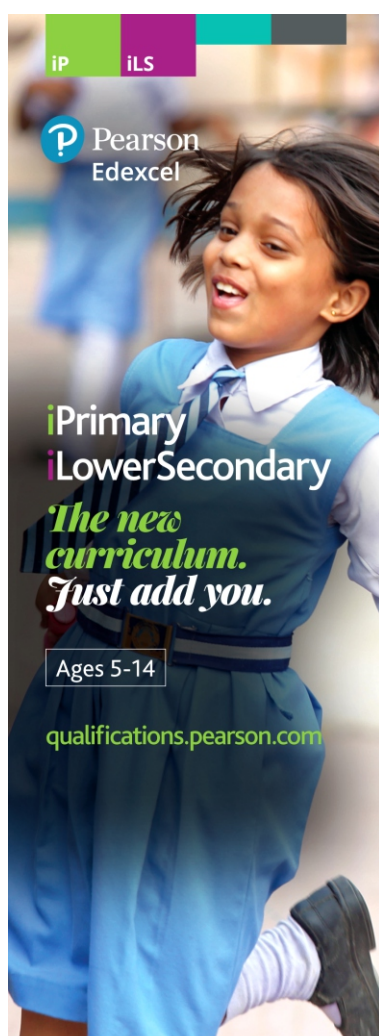

## Olevels Virtual School

# Introduction

O Levels Virtual School is a Pearson Edexcel–accredited institution, affiliated with the British Council Pakistan, offering internationally recognised British education to students around the world.

The school operates with head offices in London, United Kingdom, and Sharjah, United Arab Emirates, and provides academic programmes from Year 1 to Year 8, International GCSE, and A Level.

Teaching and learning are delivered through carefully structured virtual and blended learning models, ensuring a rigorous British curriculum while supporting the academic progress, personal development, and well-being of modern learners.

Universities and Colleges Admissions Service - UK

As a UCAS-approved centre, we support students with official guidance and processes for UK university applications. This affiliation enables our learners to confidently apply to top universities in the UK and beyond.

# iPrimary and iLowerSecondary (Year 1 to Year 7)

iPrimary and iLowerSecondary are complete teaching and learning programmes, based on British best practice, for use in international schools for 3 to 14 year-olds.

At OLevels Virtual School, interactive online classes spark curiosity and confidence students build strong foundations in literacy, numeracy, and science through engaging lessons. This programme ensures a smooth transition to higher stages within the Pearson Edexcel Pathway .

## Subjects:

- English
- Computing
- Mathematics
- Global Citizenship
- Science
- Artificial Intelligence
- Islamic Studies
- Urdu

There is also light-touch skills-based support (curricula, schemes of work, exemplar planning and professional development) for:

- Arts
- Music
- Geography
- Physical Education
- History
- Design & Technology

# iPrimary Year 1

## (Age Criteria: 5 to 6 years)

Our iPrimary Year 1 Programme provides a strong foundation across eight key learning areas, including 5 compulsory and 3 optional subjects. Following the Pearson Edexcel iPrimary framework, the programme supports early development in literacy, numeracy, scientific thinking, global awareness, and digital skills.

With interactive online lessons and age-appropriate activities, students build confidence, curiosity, and the readiness needed to progress through the iPrimary and iLowerSecondary pathways.

### We offer five compulsory subjects:

- English 
- Global Citizenship 
- Computing 
- Science 
- Mathematics 

### In addition, the following optional subjects are available:

- Artificial Intelligence 
- Islamic Studies 
- Urdu 

# iPrimary Year 2

## (Age Criteria: 6 to 7 years)

Our iPrimary Year 2 Programme further strengthens the foundation built in Year 1 by advancing skills across eight key learning areas. The curriculum includes 5 compulsory subjects and 3 optional subjects, following the Pearson Edexcel iPrimary framework.

At this stage, students continue to develop confidence in literacy, numeracy, scientific exploration, digital awareness, and global understanding. Interactive online lessons, engaging activities, and structured learning help students sharpen their critical thinking and prepare for progress into higher primary levels.

### We offer five compulsory subjects:

English

Global Citizenship

Computing

Science

Mathematics

### In addition, the following optional subjects are available:

Artificial Intelligence

Islamic Studies

Urdu

# iPrimary Year 3

## (Age Criteria: 7 to 8 years)

Our iPrimary Year 3 Programme builds upon the foundational skills developed in Years 1 and 2, introducing students to more advanced concepts across key learning areas. With 5 compulsory and 3 optional subjects, the curriculum follows the Pearson Edexcel iPrimary framework, ensuring a structured, progressive, and engaging learning journey.

At this stage, students strengthen their analytical thinking, problem solving abilities, communication skills, and digital competency. Interactive online lessons, practical tasks, and age-appropriate activities help students become more independent learners as they prepare for the upper primary levels.

### We offer five compulsory subjects:

**English****Global Citizenship****Computing****Science****Mathematics**

### In addition, the following optional subjects are available:

**Artificial Intelligence****Islamic Studies****Urdu**

# iPrimary Year 4

## (Age Criteria: 8 to 9 years)

Our iPrimary Year 4 Programme takes students deeper into the Pearson Edexcel iPrimary curriculum, strengthening academic skills and broadening conceptual understanding across key learning areas. With 5 compulsory and 3 optional subjects, the programme focuses on developing higher-order thinking, scientific inquiry, mathematical reasoning, effective communication, and responsible global citizenship.

Through interactive online lessons, structured practice, and engaging activities, students become more confident, independent learners ready to take on advanced challenges in the upper primary stage.

### We offer five compulsory subjects:

English

Global Citizenship

Computing

Science

Mathematics

### In addition, the following optional subjects are available:

Artificial Intelligence

Islamic Studies

Urdu

# iPrimary Year 5

## (Age Criteria: 9 to 10 years)

Our iPrimary Year 5 Programme prepares students for the transition into the upper primary stage by strengthening core academic skills and introducing more advanced concepts across the Pearson Edexcel iPrimary framework.

With 5 compulsory and 3 optional subjects, the programme emphasizes analytical thinking, problem-solving, scientific reasoning, digital literacy, and global awareness. Students engage in interactive online lessons, guided practice, and independent tasks that build confidence, curiosity, and a strong foundation for Year 6 and iLowerSecondary.

### We offer five compulsory subjects:

- English
- Global Citizenship
- Computing
- Science
- Mathematics

### In addition, the following optional subjects are available:

- Artificial Intelligence
- Islamic Studies
- Urdu

# iLowerSecondary Year 6

## (Age Criteria: 10 to 11 years)

Our Year 6 programme follows the Pearson Edexcel iLowerSecondary framework. Students engage in sophisticated inquiry, digital literacy, global perspectives and project-based learning.

A modern, engaging curriculum designed to build strong foundations in literacy, numeracy, digital skills, and global awareness. With interactive learning, structured academic development, and age-appropriate inquiry, students grow confidently as independent thinkers.

**We offer five compulsory subjects:**

English

Global Citizenship

Computing

Science

Mathematics

**In addition, the following optional subjects are available:**

Artificial Intelligence

Islamic Studies

Urdu

# iLowerSecondary Year 7

## (Age Criteria: 10 to 11 years)

Our Year 7 programme strengthens subject knowledge, digital competence, enquiry skills, independent learning and collaboration, preparing students for the transition toward International GCSE.

A modern, engaging curriculum designed to build strong foundations in literacy, numeracy, digital skills, and global awareness. With interactive learning, structured academic development, and age-appropriate inquiry, students grow confidently as independent thinkers.

### We offer five compulsory subjects:

- English
- Global Citizenship
- Computing
- Science
- Mathematics

### In addition, the following optional subjects are available:

- Artificial Intelligence
- Islamic Studies
- Urdu
